

Instructions for Prior Tests and Records

If you have previous test results, we ask that you bring copies of these records to your appointment for us to review. These copied records will become part of your medical record. We are a small office and so ask that you copy these records in advance of your appointment.

Please bring only *printed reproductions* of your medical records. Our office cannot be responsible for the return of original documents. If you are requesting previous doctors' offices to send medical records, please remember to allow ample time for them to comply with your requests.

Your right to privacy regarding medical records extends to your entire medical history and is not altered by changing providers, insurance companies, or type of practice.

We look forward to meeting and working with you!!
